MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT : Academic Relations Statistics
1 July - 31 December 1975

STATINTL

1. The attached tables were prepared by the Academic Relations secretary, [] based upon regular reporting from some of the offices of the Directorate. All offices in the Directorate, through their Academic Relations Officers, had an opportunity to correct a draft of this report. Thus, it is a reasonably accurate reflection of our activities, though I am certain that it is not complete.

2. Some areas are difficult to quantify -- especially the informal contact between Agency officers and their academic colleagues. I have no record of the number of DDI officers who teach courses at local schools, and I have not included any data on Directorate personnel who attend courses on a full or part-time basis. Note also that DOCEX and NTIS disseminations of reference aids are not included in these totals.

3. Basic documents to back up the totals are available in DDI/CAR files. If this kind of report is useful, I will continue to issue it twice each year. The office directors

have not seen this final version, but a number of Academic Relations Officers have asked to see it after you have had a chance to review.
